

YEBIN MIN

Frontend Developer | Eligible to work in the UK without sponsorship

Epsom, Surrey | yebin.min1@gmail.com | <https://github.com/ybmin1>

I'm a Frontend Developer with a keen eye for UX/UI. With extensive experience in multiple projects using React, I focus on building efficient web applications that optimise user experience and performance. This aspiration drives me to continuously learn new technologies and deepen my existing skills.

SKILLS

- Languages:

JavaScript HTML CSS TypeScript Python

- Frameworks & Libraries:

React Next.js Node.js Jest

- Tools & Platforms:

Git GitHub Jira

PROJECTS

- Plantour** | <https://plantour.site>

<https://github.com/Plantour/frontend>

Stack: JS, React, Recoil, Styled-Components

A plant discovery app for users to explore local flora, complete missions, and share findings on an interactive map, independently handling front-end development.

- Transform House**

<https://github.com/ybmin1/TransformHouse>

Stack: HTML, CSS

A cross-section of the house is responsive and adjusts its layout based on the screen size.

EXPERIENCE

MAR 2024-
PRESENT

KOREAN WOMEN IN TECH | COLLABORATOR

UK

Active member of a developer study group, meeting regularly to explore new technologies, share insights, and enhance coding skills through collaboration.
